Office Action Summary	Application No. 10/669,682	Applicant(s) MATSUURA ET AL.	
	Examiner Tara L. Mayo	Art Unit 3671	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The prior rejection of claim 26 has been overcome by the cancellation of the claim.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 through 4, 12, 14 through 16 and 26 through 31 are rejected under 35 U.S.C. 102(b) as being anticipated by Jackson (U.S. Patent No. 4,377,123).

Jackson '123, as best seen in Figure 1, shows a motion reduction apparatus for a floating body comprising:

a plumb plate (13) which is provided on at least a substantially vertical side surface of a floating main body (10), is separated from the floating main body a specific distance, extends in a vertical plane with respect to the floating main body in an upright orientation, and extends below a lowermost bottom surface of the floating main body;

wherein the plumb plate is supported at a specific location of the floating main body by a plurality of stay members (14, 15 and 21) arranged on the floating main body so as to provide flow sections that are surrounded by the floating main body, the plumb plate, and the stay members;

Art Unit: 3671

wherein the plumb plate is constructed to swing (via element 16) with respect to the floating main body;

wherein the plate has an edge section closest to the floating main body that is separated from the floating main body by a specific distance, and an upper edge of the plate member is oriented at substantially a same level as a lowermost bottom surface of the floating main body; and

with specific regard to claims 29 and 30,

wherein the plumb plate in a longitudinal direction is substantially the same longitudinal length as the floating main body.

Response to Arguments

4. Applicant's arguments filed 08 August 2007 have been fully considered but they are not persuasive.

In response to Applicant's argument that Jackson '123 fails to meet the invention as claimed, the Examiner first notes the claim does not require the floating body to be substantially vertical at the point of contact as argued by Applicant. In rebuttal, the Examiner contends the plumb plate (13) shown by the prior art is provided on a substantially vertical side surface of the floating body as recited in the claims.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3671

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
